CULCAIRN MPS WINS REGIONAL EXCELLENCE AWARD

Murrumbidgee Local Health District's (MLHD) staff at Culcairn Multipurpose Service (MPS) are thrilled with their state-of-the-art and award-winning facility.

At the Master Builders Association Regional Builders Awards in Wagga Wagga recently, local Albury contractor Zauner Constructions won the category for 'Commercial Building over 10 Million' for the Culcairn facility.

Zauner Constructions worked closely with MLHD, Health Infrastructure and Johnstaff Project Managers to deliver a new facility which brings an outstanding result for the community.

"The end of April 2019 marked the completion of the Culcairn MPS, which now provides Culcairn and surrounding communities with an incredible facility that will service their health needs well into the future," said MLHD's Facility Manager Kathy Rhodes.

"We are thrilled with this recognition of our facility," added Ms Rhodes. "The project teams' dedication to the delivery of this project was commendable and our staff and residents are enormously pleased with the results."

The awards night was held in Wagga Wagga on Friday 16 August 2019.

Funding for the Culcairn MPS is part of the \$300 million fifth stage of the MPS program.
