

### CULCAIRN MPS PROGRESS

Demolition works, which have been underway on the old Culcairn Multipurpose Service (MPS) for several months are now complete.

As these photos show the site has been cleared and the installation of footings for the new MPS has begun.

These works include the installation of services such as water and gas and other essential services.

*The footings for the Culcairn MPS are being installed.*

**02 6044 6100**

The new phone number for Community Health is

**02 6044 6110**

### LIFE AT THE CULCAIRN MPS

All clinical services continue at the Culcairn Multipurpose Service (MPS) via the Edward Street entrance with a temporary Emergency Department and a temporary three-bed acute area in place.

The residents have moved into their new Residential Aged Care (RAC) rooms and are very comfortable in their home-like environment.

There are still six residents who will need to be moved temporarily in the coming months.

The new Acute facility is expected to be ready by early 2019.

The remaining works include renovation to the existing aged care rooms, staff accommodation and landscaping.
