

Murrurundi Hospital Redevelopment

Join us in creating a beautiful hospital environment

The Murrurundi Wilson Memorial Hospital is under redevelopment, with a new purpose-built facility to be constructed on the existing hospital site.

Creating a beautiful hospital environment is important to deliver welcoming and memorable spaces for patients, carers, staff and the community using multi-arts forms.

Are you creative, innovative or interested in the arts?

Expressions of interest are invited for volunteer representatives to join the Murrurundi Community Reference Group (CRG).

With limited resources, the CRG is responsible for advice on the integration of arts elements into the new Murrurundi Wilson Memorial Hospital. This includes visual arts, as well as music, historical pieces, and appropriate signage, that have the ability to improve health and wellbeing and make the new hospital a welcoming place.

Representatives of the Murrurundi CRG will:

- Collaborate as part of a team;
- Provide advice to enable arts in health settings;
- Identify possible funding or partnerships for projects and commissions; and
- Share and discuss arts in health strategies with colleagues and community to ensure opportunities respond to the interests and culture of our hospital community.

Get in touch and share your interest

For application forms or more information on the Murrurundi CRG please contact Kylie Neville on 0438 254 008 / kylie.neville@health.nsw.gov.au. Applications are due by 5pm, Friday 6 March 2020.
