

CONSTRUCTION CONTRACT ANNOUNCED

The redevelopment of the Hay Health Service has reached a major milestone with the award of the construction contract this month to Barpa Pty Ltd. In the coming months, the community will see the site being established as preparations are made to start construction.

Design, planning and consultation with staff, residents and the community has been underway since the project was announced in late 2019. The company awarded the construction contract, Barpa, is a majority Indigenous owned commercial construction company. With experience delivering projects across Australia, Barpa is committed to developing economic opportunities, creating Indigenous employment, strengthening connection to country and culture, and increasing individual and community capacity.

The expansion of the Health Service will provide improved facilities to support the delivery of flexible and integrated healthcare to the community. The project includes the extension of Residential Aged Care, new staff accommodation and upgrades to existing emergency facilities – providing capacity to meet the health needs of the Hay community now and into the future. The project is scheduled for completion in 2021.

ABOUT THE PROJECT

Once completed, the redevelopment will deliver:

- additional aged care rooms and a resident lounge;
- an external landscaped area and outdoor socialisation space for residents;
- a new emergency triage area, which will provide hospital nursing staff with a dedicated area to assess and prioritise patients for treatment;
- three new staff accommodation units to support the staffing and operations of the health service;
- refurbished reception and administration areas to facilitate contemporary models of care and improve security and accessibility.

WORK TO START SOON

October to November 2020: site mobilisation and investigations

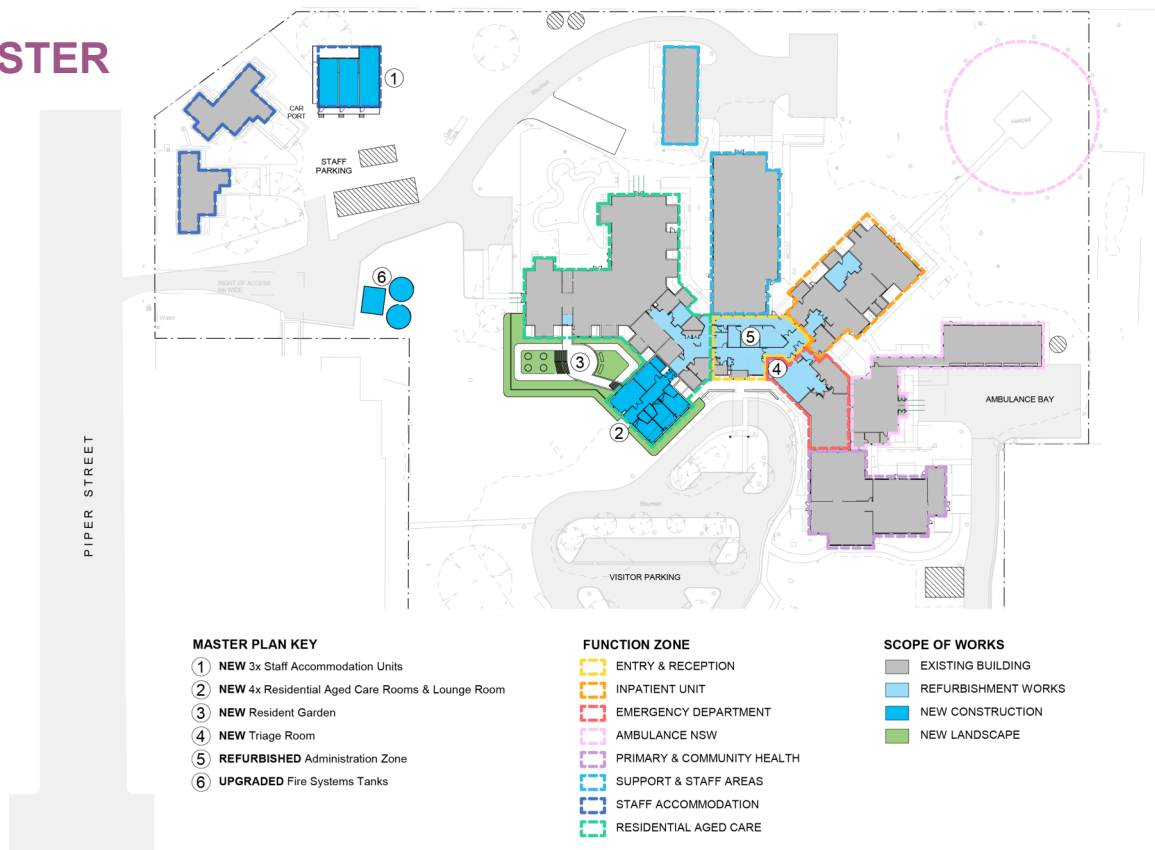

December to Mid-2021: construction

Late-2021: operational commissioning, after which the new facility will become operational.

Note: dates are indicative and subject to change

ZONAL MASTER PLAN

The Project Team seek your patience during the construction period and wish to advise that health services will continue during construction. Every effort will be made to minimise disruption to staff, patients, residents and visitors .
