

## PROGRESS REPORT

Construction work on the Barham Multipurpose Service (MPS) is progressing well with the electrical and hydraulic services in place and ready to be commissioned in 2019.

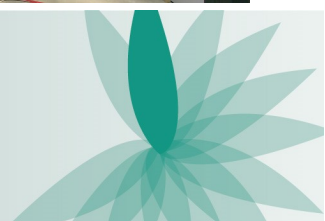

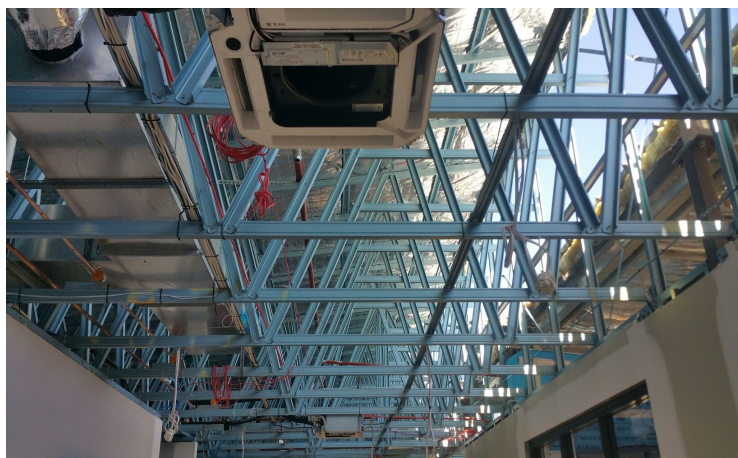

Work will also commence on the installation of flooring, seating, windows and frames and hanging doors.

A special feature of the Barham MPS will be a large skylight in the entrance to the new facility.

The new building also allows a lot more light with its focus on outside views and large in patient rooms.

The MPS is due to be complete in 2020.

## WORKING TOGETHER AT BARHAM

*Above: Working together on a shared space for Barham MPS and Murray Haven Homes (MHH) is MHH Gardener Jason Cain, Barham MPS Asset Management Jim Kinsey, MHH Board Vice President Pam Waldren, Barham MPS Facility Manager Lois Opie, MHH Business Manager Stacey Kelly and Hospital Auxiliary Secretary and Local Health Advisory Committee (LHAC) member, Joy Eagle.*

Plans are underway for a shared “symbolic” space between Barham Multipurpose Service (MPS) and Murray Haven Homes (MHH).

The space will be a welcome point for visitors and a linkage between the two sites.

A working party has been established and the group will now start considering what should go into the space such as seating and plants suitable and local to Barham.

The space will be a place of beauty and contemplation for residents and their families as well as visitors.

## THANK YOU

*A very big thank you to the Hospital Auxiliary who donated \$100 to the Pink Stumps day held recently at the Barham MPS. It was a very successful day and made more so by the Auxiliary's generosity.*
