

Reception is moving!

As part of the redevelopment project, please be advised that the Coolah MPS reception is moving in mid-June 2018.

The new reception will be located in the middle hub of the MPS, and can be accessed via the new main entry, as shown in the image below.

This entry should also be used for patients presenting to emergency, and temporarily for GP clinic patients.

Signage is in place directing people to the new main entry, which came into effect several months ago.

This will continue to be the main entry to the MPS after the redevelopment is completed later this year.

If you require further assistance please don't hesitate to ask the friendly MPS staff.

Temporary entry for GP clinic

Patients visiting the GP at the MPS will need to access the building via the new main entry (as shown in the image above) over the next couple of months. This will allow construction works to occur at the GP clinic area.

GP patients should enter via the new main entry and present to the new reception area in the middle of the MPS. Here they will be met by a receptionist who will assist them further.

Once the GP clinic works are complete, the GP clinic entry point will return to the former front entry (from the public carpark).

**If you would like further information
please contact the Health Service
Manager on 02 6377 9100.**

Thank you for your understanding during
this time.
